#### From the School Group Leader, Ms. Asha Samuel

Projects Abroad is an embodiment of professionalism and excellent organisational skills. My main goal was to achieve all the CAS learning outcomes by students participating in a range of activities that cover the 3 strands of CAS which is Creativity, Activity and Service. Projects Abroad had activities planned and organised in an excellent time frame which enabled the students to achieve these goals. My students and parents are totally happy with the experiential learning that their children experienced in Krabi. The tears at the Care and Community centre speak a lot. The activities were very well-organised by Projects Abroad which gave the students of CIS ample time to plan strategies for the activities at the Care centre. Safety measures were very well taken care of by them which is evident from the snorkelling activity. The team of Projects Abroad are very disciplined and helpful. It was a privilege for me and the students of CIS to have had this opportunity to be at Krabi with the team of Projects Abroad.

CIS hopes to do many more group trips with Projects Abroad.

I would like to thank Projects Abroad for the wonderful experience and the facilities provided for us. This project has been carefully planned and executed with love and care. This has definitely provided us with valuable experience that we would cherish and have in our entire life. Once again, thank you Projects Abroad.

The beach cleanup makes me realise that citizens must act more environmentally friendly. The visit to the children's school made me realise that others happiness is more important than your own
